DETAILED ACTION

Response to Amendment

1. According to the Amendment, filed 24 June 2009, the status of the claims is as follows:

Claims 1, 5, and 8 are currently amended;

Claims 2-4 and 9 are previously presented; and

Claims 6 and 7 are cancelled.

2. The 35 U.S.C. 112, first paragraph, rejections to claims 1-5, 8, and 9 are WITHDRAWN in view of the Amendment, filed 24 June 2009.

3. The 35 U.S.C. 112, second paragraph, rejections to claims 1-5 are WITHDRAWN in view of the Amendment, filed 24 June 2009.

Response to Arguments

4. Applicant's arguments, see Remarks, pp. 4-5, filed 24 June 2009, with respect to the rejection of claims 1-5 and 7-9 under 35 U.S.C. 103(a) as being Koyama et al, U.S. Patent No. 5,101,831 A, have been fully considered, and are persuasive. The rejection of claims 1-5 and 7-9 has been withdrawn.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement

thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1-5, 8, and 9 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim(s) 1-5, 8, and 9 are rejected under 35 U.S.C. 101 as being directed to non-statutory subject matter because these are method or process claims that do not transform underlying subject matter (such as an article or materials) to a different state or thing, nor are they tied to a particular machine. *See Diamond v. Diehr*, 450 U.S. 175, 184 (1981) (quoting *Benson*, 409 U.S. at 70); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978) (citing *Cochrane v. Deener*, 94 U.S. 780, 787-88 (1876)). *See also* In re Bilski (Fed Cir, 2007-1130, 10/30/2008) where the Fed. Cir. held that method claims must pass the "machine-or-transformation test" in order to be eligible for patent protection under 35 USC 101.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-5, 8, and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms "small" and "large" in claim 1 are a relative term which renders the claim indefinite. The terms "small" and "large" are not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one

of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

In claim 1, it is not clear what is meant by the limitation "the gain being set so that an amplitude of the output signals becomes small when a peak value of the signals exceeds an upper limit threshold, whereas the amplitude becomes large when the peak value is below a lower limit threshold". Is the gain being set so that the amplitude becomes large when the peak value is below a lower limit threshold?

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The other patents cited in the PTO-892 teach subject matter related to the Applicant's claims. The Examiner suggests reviewing these patents before responding to the present Office Action.
